

Stigma is ignorance and  
ignorance is darkness

*You need light when you see  
darkness*

Jesus said: Let your light so  
shine before men that they can  
see your good works

*Just only tiny flame of love and  
kindness---can and does light the  
world*

*bringing hope, health and  
happiness to everything that is  
exposed to that light.*

Each of us today is a tiny  
flame

Let's all go light other candles today  
One candle in the darkness being lit  
by another, then another...

Love enlightens the world

---

Lets all go light the world today
